myIRB Individual Training Lookup “Cheat Sheet”

Go to:  https://my.irb.ufl.edu/

This takes you to the Gatorlink Authentication page. Enter your Gatorlink username and password:

- Enter your username and password.
- Click the “Login” button.

Call (352) 392-HELP for assistance with your Gatorlink username and password.

If you successfully login you will be taken to your “Home” page, where it displays your regular “workspace”. Click on your name in the upper right to see your information, including your training data.
Scroll to the bottom of the screen to see your training data.

Note: once you complete training it can take several business days for the results to be imported into myIRB because test results have to migrate across several systems via nightly processes.
